Experience

WEB DEVELOPER TRAINEE | ROSTINGTON TECHNOLOGY | DEC 23 – JAN 24

- Built layouts according to customer parameters using HTML5 and CSS3.
- Assist senior developers with website development tasks, including HTML, CSS, and JavaScript.
- Stay up-to-date on the latest web development trends and technologies.
- Demonstrate a strong learning attitude and eagerness to contribute meaningfully.

Education

BACHELOR OF COMPUTER SCIENCE | AUG - 2025| SANJAY GHODAWAT UNIVERSITY, KOLHAPUR

DIPLOMA IN COMPUTER SCIENCE | AUG - 2021| SANJAY GHODAWAT POLYTECHNIC, KOLHAPUR

SSC | MAR- 2018 | ST. THOMAS ENGLISH SCHOOL, SANGLI

Virtual Experience Program

- **The Forage Cognizant** - Agile Methodology Virtual Experience Program, 11/2022.
- **The Forage Accenture** -Developer Virtual Experience Program, 11/2022.
- **The Forage TCS** - Cybersecurity Analyst Job Simulation, 02/24.

Skills & Abilities

- Core Java
- Python
- React JS
- Angular JS
- Tailwind CSS
- Bootstrap
- HTML
- CSS
- MySQL
- Dart
- JavaScript
- Full-stack development
- Machine Learning
- C
- C++
- PHP
- VB.net
- SQL
- Version Control Git
- Web Analytical Tools
- Android Studio
- Flutter
- React Native
- Software testing
- Application debugging

Projects

IMDB Clone using ReactJS and Tailwind CSS

- Pioneered a website that looks like an IMDB website. Movies details are fetched with an TMDB API. User can add movie to watchlist.
- Build your own movie stash! Easily find all your favorites with our perfectly organized categories and smooth browsing.
- Transform a website into a modular masterpiece using React components, including an engaging navbar, a compelling main page, and a user-friendly footer.

Free Learn Android Application
- Engineered a groundbreaking learning platform, Free Learn, revolutionizing global education access with interactive content.
- Crafted in Java and designed using XML. Database used firebase Realtime. Listed 50+ free courses that can be directly go to the enroll page and start l7earning.

99 acres Clone Android Application
- This project replicates core functionalities of real estate platforms like 99acres. Users can seamlessly post detailed property listings complete with captivating imagery. A dedicated user portal empowers individuals to manage their uploads with ease. To ensure data integrity, the application employs a rigorous organizational structure.
- Leveraging Google Gmail authentication, the platform fosters a secure login environment. Additionally, Firebase notifications offer a real-time communication channel, ensuring users stay informed.

Age Predictor Model with Python & OpenCV
- This project harnesses the power of Python and OpenCV to construct a cutting-edge face detection model. This model, often employing a Convolutional Neural Network (CNN) architecture, analyzes a user's facial features captured through a webcam to estimate their age with remarkable accuracy.

Certifications
- **Vanderbilt University** - Prompt Engineering for ChatGPT
- **Google** - Advanced Google Analytics & Google Analytics Individual Qualification
- **Harvard University** - CS50 Computer Science
- **Scaler** - ReactJS Free Course
- **TCS** – Impress with your Interview & TCS Young Profession
- **Basics** – Udemy Python, The Digital Adda Java & Google Data Analytics
